Industial Process Equipment: Pumping Equipment

- Rotary Lobe/Disc Pumps
- OEM Specialty
- Sump/Sewage Self-Priming
- Industrial Centrifugal Self-Priming
- Industrial Submersibles
- Rotary Lobe Pumps
- End Suction Inline, Multistage
- Poly, CPVC, PVDF Centrifugal
- Specialty/Custom High Pressure
- Barnes, Burks, Crown, Deming, Prosser, Weinman
- Self-Priming
- ANSI Process
- High Temperature
- Heavy Submersibles Non-clog
- Single/Multistage Centrifugal
- Gear Chemical Pumps
- Metallic/Non-Mag Drive Gear pumps
- Fiberglass ANSI, Cantilever, End Suction
- High Pressure/Metering
- Centrifugal/Multistage Sump/Sewage/Turbine
- Machine Tool Coolant

Fabrication and Design

PFC has the capability to engineer and customize products and integrate them into a system specific to your needs. Over the years, we have engineered and fabricated systems for every industrial market. Whether you are in food and beverage, heavy industrial, medical, chemical, oil and gas or any market in between we have provided CLEAR SOLUTIONS for all types of applications.

Service and Repair

Do you have a pump that is in need of repair? PFC Equipment has an advanced warranty and repair facility, factory-certified pump mechanics, testing areas, and a Class 1000 Clean Room. Ask us about our free no obligation in-shop pump inspections and repair estimates.

We service and repair all types of pumps whether at PFC or on site – please ask for Cory or Mark if you have any questions or simply email *theshop@pfcequip.com*
Welcome to our B2B Solutions Website for fluid handling equipment. We are in the process of adding new products, centrifugal pumps, rotary pumps, dosing pumps, positive displacement pumps, industrial filtration systems, water controls & many other fluid handling equipment that would offer solutions for your challenging applications.

To view pricing, register to become a member. Your request will be reviewed and in a short period of time a confirmation email will be sent to you when pricing is available.

We are always here for your assistance. We offer live help during our business hours or give us a call. After hours, emails will be responded to the next business day.

At the PFC eStore you can easily shop for your item by clicking the product type & manufacturer. Once you drill into the site a product filter will display to make your selection process easier. We also offer live support during business hours. We are a B2B eCommerce store so we don’t advertise our prices publicly. Once you become a member you will see your discounted prices and estimated shipping costs.
The PFC Service Mission

PFC Equipment, Inc. was established in 1969 as a specialty distributor of pumps and filters to general industry.

Over the past 50 years we’ve broadened our operations and now offer complete fluid distribution systems as well as a comprehensive line of pumps, filters and related components. We’ve also established a state-of-the-art service and repair facility, including three test areas and a Class 1000 clean room. Everything has been designed to keep our customers’ fluid management systems operating with like-new efficiency.

PFC will continue to provide products and service that exceed our customers’ expectations. We strive to continue in our role as the leading distributor and service organization in our field. We are committed to long-term growth and excellence through customer and supplier partnerships, creating value for all.

Call us for a clear solution to your next fluid handling project!
